# How to earn CPE credit at APhA2026

**1** Welcome to APhA2026! You can earn CPE credits immediately at the end of each session during the conference or after you get home for up to 60 days.

Before earning CPE, it's important that you ensure that APhA has your NABP ID and date of birth on file. Visit your pharmacist.com My Account, click CPE & License information, and enter your information if it's missing or incorrect. A green checkmark means that we have your information, and your credits will be transferred to CPE monitor once you complete the following steps.

Update the Personal Info section of your APhA profile with Pharmacist or Pharmacy Technician depending on your role. This will ensure you receive the correct type of CPE upon completion.
